Letraset

This simple stock card is designed to help you maintain adequate stock control level. If used as recommended it will enable you to meet customer demands at all times.

1. Insert the card at your minimum stock level, so that the minimum stock quantity is under the card.
2. When your stock level drops and reveals this card, remove it and re-order entering date and quantity.
3. Do not re-insert stock card until your order is received when it should be replaced again at the minimum stock level.
4. A study of the order date on each card will indicate the rate of stock turn and whether your minimum stock levels should be increased. Any Sheet ordered more frequently than once a month indicates that the re-order quantity should be increased.

Remember that larger stock orders save: - (A) Handling costs. (B) Postage (C) Clerical time.

Date	Qty	Date	Qty
